

## The Fraternity of Saint George in the Artillery Garden The Honourable Artillery Shoot: 8 October 2017 at the Marks and with the ninth I.L.A.A. Championship at Speed

The Honourable Artillery Company has graciously allowed the Fraternity of Saint George the use of its splendid and historic Artillery Garden for a shoot at the Marks and a Championship Shoot at Speed to raise money for the HAC. Benevolent Fund. The Shoot is by kind permission of the Honourable Artillery Company's Court of Assistants and its Chief Executive. The Shoot is open to all by pre-registration.

The Artillery Garden is the last part of the former Finsbury Fields. No formal shoot at the Marks has been held in the area for some two Centuries; archers of the Fraternity of Saint George are the exception. There is no equivalent archery field in the world that bears comparison to the Artillery Garden. It is hallowed ground for the longbow archer and the opportunity to shoot here is a great honour for us all. The coming shoot has historic significance and will be an occasion of quiet splendour.
